

11th Asian Symposium on Process Systems Engineering

PSE ASIA 2024

Theme:

Process System Engineering - Incubating Sustainability for Industrial Revolution 4.0

5-8 AUGUST 2024

**PENANG ISLAND,
MALAYSIA**

Introduction

The PSE Asia series is a biennial international symposium in Asia bringing together researchers and practitioners to discuss recent developments in Process Systems Engineering. PSE Asia 2022 is the tenth symposium following previous events at Kyoto (2000), Taipei (2002), Seoul (2005), Xi'an (2007), Singapore (2010), Kuala Lumpur (2013), Tokyo (2016), Bangkok (2019), Taipei (2020) and Chennai (2022).

PSE Asia 2024 provides an interactive platform for researchers and practitioners to exchange knowledge in various PSE topics, ranging from the fundamental theory to applications. Main topics of this symposium include (but not limited to):

- Process dynamics and control
- Product and process design
- Supply chain management
- PSE for circular economy/sustainable processes
- PSE for Process Safety & Operations
- Process integration and optimisation
- Artificial intelligence and big data
- Education in process systems engineering
- Industry applications
